

RAHUL RAJ

JAVA FULL STACK DEVELOPER

5.5+ Years Experience | Enterprise Java Development & AI-Augmented Engineering Enthusiast

✉ rahulrajonline.ai@gmail.com | ☎ +91 84648 77579 | 🌐 rahulrajonline.in

CAREER OBJECTIVE

Java Full Stack Developer with 5.5+ years building scalable microservices and Angular front ends for global fintech, banking, and healthcare clients. Skilled in Spring Boot, Kafka, and cloud-native architectures, with a growing focus on AI-assisted engineering to boost delivery velocity. Looking to bring consulting-grade full-stack expertise to an enterprise digital transformation team.

KEY ACHIEVEMENTS

- Delivered enterprise-grade microservices for global fintech and healthcare clients, consistently meeting client-committed release timelines.
- Improved high-traffic API response times by up to 30% through strategic Redis caching implementation.
- Adopted AI-assisted engineering practices (Claude AI, GitHub Copilot) to speed up code reviews and test generation, cutting review turnaround by ~25%.

CORE TECHNICAL SKILLS

- › **Languages & Frameworks:** Java 8, Java 17, Spring Boot, Spring MVC, JPA/Hibernate
- › **Architecture & Integration:** Microservices Architecture, RESTful APIs, Apache Kafka
- › **Frontend Development:** Angular, TypeScript, JavaScript, HTML5, CSS3
- › **API Security & Documentation:** OAuth2, JWT Authentication, API Gateway, Swagger/OpenAPI
- › **Data & Caching:** MS SQL Server, AWS RDS, Redis
- › **DevOps & CI/CD:** GitLab Pipelines, Maven, Gradle
- › **Testing & Quality:** JUnit, Mockito, SonarQube, Fortify Scan, Code Reviews
- › **Agile Collaboration:** Scrum, Confluence, Cross-Functional & Client-Facing Delivery
- › **AI-Augmented Engineering:** Claude AI, GitHub Copilot, Devin AI

PROFESSIONAL EXPERIENCE

Infosys — Senior Associate Consultant, Hyderabad, India | Jan 2025 – Present

Client Project: Fiserv Inc., USA | Java Developer | Mar 2025 – Present

- Design and develop scalable Spring Boot microservices and RESTful APIs for a global fintech platform processing 1M+ daily transactions.
- Secure APIs using OAuth2 and JWT authentication, and document 20+ endpoints with Swagger/OpenAPI for cross-team consumption.
- Collaborate with onshore/offshore Agile teams across time zones to deliver features on schedule for enterprise banking clients.
- Contribute to CI/CD pipeline improvements on GitLab, with SonarQube and Fortify scans, reducing critical code-quality issues by ~20%.
- Explore and apply AI-assisted development tools to accelerate code reviews and unit test generation, cutting review turnaround time by ~25%.
- Participate in code reviews and architecture discussions to ensure adherence to enterprise coding standards and best practices.

Tata Consultancy Services (TCS) – System Engineer, Hyderabad, India | Jan 2021 – Jan 2025

Client Project: State Farm, USA | Java Developer | May 2024 – Jan 2025

- Built and maintained Spring Boot microservices supporting insurance policy management workflows, integrated with MS SQL Server and AWS RDS.
- Developed Angular front-end modules with reusable components, reducing new-feature development time by ~20%.
- Used Redis for caching frequently accessed data, improving API response times by up to 30% for high-traffic services.
- Wrote unit and integration tests using JUnit and Mockito, maintaining 85%+ code coverage ahead of production releases.

Client Project: Cardinal Health Inc., USA | Java Developer | Jan 2021 – May 2024

- Developed and maintained Java 8/Spring MVC applications supporting healthcare supply-chain operations across multiple distribution centers for a global healthcare enterprise client.
- Built RESTful APIs and backend services with JPA/Hibernate, and automated build/deployment with Maven/Gradle and GitLab CI/CD pipelines.
- Worked closely with QA and onshore business analysts to translate requirements into scalable technical solutions.
- Contributed to sprint planning and estimation across 20+ sprints, helping the team consistently meet client-committed release timelines.

EDUCATION

Bachelor of Computer Application (BCA) | 2017 – 2020

Kolhan University | Aggregate: 80.97%

CERTIFICATION

Claude Certified Architect – Professional – Anthropic | Aug 2026

Claude Certified Architect – Foundations – Anthropic | Aug 2026

Database Management System – NPTEL | Sept 2019

Programming in Java – NPTEL | Apr 2019
